

California OES Weather Threat Briefing

Monday, June 22, 2020 9:00 AM PDT

National Weather Service

Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

Day 1 (Monday): Heat impacts are possible across Inland CA today.
 Increased fire weather concerns in southern CA with continued heat and dry conditions.

WEATHER KEY POINTS 06/22/20 - 06/28/20

Monday - Sunday

- Threats for heat related health impacts increase throughout the central valley and Sierra and coastal range foothills today and continue through the week.
 - Slightly less heat impacts expected for the Delta, as the Delta breezes will bring more overnight relief than other areas of the central valley this week.
 - Heat Advisories are currently in effect across the valley from this afternoon through Saturday.
- Light showers and a few thunderstorms will also be possible Tuesday through Thursday in the Sierra Nevada.
- Elevated fire weather concerns in southern CA as breezy afternoon winds combine with the hot and dry conditions each afternoon across the LA County Mountains and Antelope Valley areas.
